Jackson Purchase Energy Corp Selects Milsoft GIS, Field Engineering & OMS

ABILENE, Texas – September 25, 2013 — Milsoft Utility Solutions, Inc., Jackson Purchase Energy Corporation in Kentucky has chosen the Milsoft Geographic Information System (GIS), Field Engineering (FE) and Outage Management System (OMS).

Jackson Purchase Energy Corp., already a user of Milsoft Engineering Analysis and Milsoft IVR Communications has expanded to the Milsoft Engineering & Operations System with the addition of Milsoft GIS and OMS. “The Milsoft GIS will enable us to more conveniently and accurately create, manage and use the circuit model, system maps and facilities data that we need to plan and operate our system,” said VP of Engineering and Operations Scott Ribble, “and the Milsoft OMS will help us identify and respond to service outages more quickly and efficiently than ever.”

Milsoft GIS software provides state of the art capabilities for electric utility mapping and asset data management through powerful yet easy to use software that incorporates a detailed electric network circuit model and is fully integrated with ESRI GIS tools. Milsoft Field Engineering enables rapid, efficient collection and utilization of data during field design of system additions and improvements. GIS and FE together provide the data capture, management and display capabilities that a utility needs to realize the full benefits of using GIS. Milsoft OMS enables utilities to detect, evaluate and respond to customer service outages more quickly and effectively, especially during severe system outage events. A detailed electric network connectivity model and logical location prediction enables speedy, accurate response and restoration and ensures timely and accurate communications with employees, customers and other stakeholders. Milsoft leads the industry in integration and interoperability of its OMS with its customers’ other systems and applications.

About Jackson Purchase Energy Corporation

Jackson Purchase Energy Corporation, headquartered in Paducah, Kentucky, serves nearly 30,000 metered accounts on the north side of the western tip of Kentucky. The consumer owned and governed cooperative celebrated its 75th year in business last year and continues to be its consumers’ Partner in Power, using both the most modern technologies and time tested techniques to provide economical, safe, reliable and environmentally friendly service.
