HCI_AMIRFP_2846 ADDENDUM NO. 6

QUESTIONS SUBMITTED BY EMAIL FROM MARCH 24-31, 2020

Questions:

Does HCI envision that Member utilities will integrate:

- a) point-to-point between their CIS/Billing system and the MDM solution or
- b) will HCI have an integration system in between the Member CIS/Billing systems and the MDM solution?

Answer:

HCI does not currently have an integration system so option (a) may be the best fit initially. If the respondent wishes to propose an intermediary integration system/enterprise service bus (ESB) that HCI controls, then HCI would be interested in reviewing this option as well.

If (b) then will multiple Members be aggregated into a single file interface or will there be separate files per Member?

Answer:

Most likely separate files for each member to reflect their individual CIS/Billing system requirements.
